

## About NJ Medical Institute and Chicago Kaplan Center

This year-long course is offered at two of our state-of-the-art facilities. The first is our NJ Medical Institute located in Newark, New Jersey, and only minutes outside of New York City. The second is our Kaplan center located in Chicago, Illinois, conveniently located near the Metra and El Train transportation lines. Both facilities were specifically designed for medical test preparation. CompletePrep students will benefit from all of the many services and amenities that these locations have to offer, including:

- ▶ Clinical skills examination rooms
- ▶ Two lecture auditoriums
- ▶ Computer lab for online and video prep
- ▶ Multiple small-group breakout rooms
- ▶ Staff of knowledgeable Kaplan Medical Advisors

## Personal Learning System (PLS)

We understand that preparing for the USMLE can seem like an overwhelming task. Kaplan Medical's innovative PLS is an interactive study tool that will analyze your test scores and create a personalized study guide customized to your strengths and weaknesses. A feature of select Step 1 and Step 2 CK review programs, PLS helps you focus on the topics that you need to improve and provides suggestions for remediation in weak areas.

## The Ultimate Step 1, Step 2 CK, and Step 2 CS Preparation Course Locations:

## CompletePrep

Kaplan Medical's CompletePrep is our most rigorous, personalized course covering all of the exams needed to begin residency in the United States. A 12-month, *immersion-style* program, CompletePrep provides intensive Step 1, Step 2 CK, and Step 2 CS preparation combined with *personalized attention* and expert guidance from our all-star faculty, academic advisors, and test-taking and study-skills experts. Students receive premium course instruction, comprehensive step-by-step guidance on residency applications, and the Match process. Participants in this program will work with advisors to plan out and accomplish their medical career goals of obtaining a medical residency in the United States. In addition, enrolled students will receive 8 weeks of *hands-on clinical experience* in Family Practice or Internal Medicine that will further assist them in their understanding of medicine in the United States and aid in their success on the USMLE. From beginning to end, international medical graduates will receive only the best. From high-yield exam preparation to *individualized career guidance*, CompletePrep has all the tools necessary to attain a residency in the States.
